ABOUT ME

I am an enthusiastic and motivated individual with a keen interest in web development and UI/UX design. I enjoy building responsive and user-friendly interfaces that enhance the user experience. In addition to front-end development, I have a growing interest in cloud platforms like AWS, where I explore scalable and efficient solutions.

I also have a strong foundation in programming languages such as C which helps me approach problems logically and efficiently. My experience with databases and management tools further supports my ability to organize and maintain data-driven applications. I am committed to continuous learning and excited to contribute to impactful technology projects.

EDUCATION

2019 - 2020
sri chaitanya High school

Class 10
CGPA: 10.0 / 10

2020-2022
Sri Chaitanya Junior College, Andhra Pradesh

Intermediate (MPC Stream)
Scored: 715 / 1000

2022-2026
KL University, Andhra Pradesh

Bachelor of Technology (B.Tech), Computer Science Engineering
Pursuing, present cgpa(8.3)

SKILLS

Programming Languages: C, Java

Databases: MySQL, MongoDB

Web Technologies: React.js, Node.js, HTML, CSS

Tools & Platforms: Visual Studio Code (VS Code), AWS, Figma

PROJECTS

Online Timetable Management System
Technologies Used: React.js, Node.js, HTML, CSS, MongoDB
Developed a web-based application to automate and manage academic timetables for educational institutions. The system allows admins to create, update, and assign schedules efficiently. Built the front end using React.js for a dynamic user experience, and implemented the backend using Node.js with MongoDB for flexible and scalable data storage.

Online Banking Management System
Technologies Used: MERN Stack (MongoDB, Express.js, React.js, Node.js)
Designed and built a secure and responsive online banking platform to manage customer accounts, transactions, and user authentication. Implemented full CRUD operations and ensured seamless communication between frontend and backend. Focused on clean UI, security practices, and real-time updates to enhance the user experience.

CERTIFICATES

Salesforce Developer Virtual Internship Certificate
